PINSON MINING COMPANY

TEMPORARY APPLICATION TO CHANGE A PORTION
OF APPLICATION TO APPROPRIATE NO. 57891

Pinson Mine has expanded their mining to include the area within the SE1/4 of Section 29, T38N, R42E, MDB&M, therefore continued dewatering will be required at this pit site. The increased .50 cfs under Application to Appropriate No. 57891 represents a need to increase the total consumptive use from 350.61 MGA to 468.56 MGA.

This additional point of diversion will be for continued dewatering of the expanded project. We are requesting that .25 cfs or one-half (1/2) of Appropriation No. 57891 be temporarily moved to the Section 29 pit area. Water from the dewatering system will be discharged in a manner consistent with previously approved dewatering permits.
